For medium-sized sweeping jobs

Nilfisk SW 850S is a larger walk-behind sweeper with a higher sweeping and loading performance to satisfy wider and more open spaces. Ideal for cleaning offices, exterior parking areas, warehouses, garages or factories.

Nilfisk SW 850S sweeps up to 3700 m² per hour and the 50 litres large hopper fills all the way to minimise emptying requirements.

Main brush, side brush and filter are easily adjusted or changed without the use of tools. A flap system allows the collection of large debris without having to stop to pick it up manually. Choose between battery and petrol-powered versions.

PRODUCT FACTS

- Theoretical productivity rate of 3.700 m2 per hour
- Steel chassis and durable polyethylene construction resists corrosion
- Back loading system with flap, good for all types of waste: paper, metal pieces or small stones
- Powerful vacuum turbine in aluminium
